## ISC TO RELEASE A NEW VERSION OF WEB.ICASS

The next ICASS software release (Web.ICASS 2.25) will be released in early March. Version 2.25 will include new comparison/trend reports (in pdf format) for workload data as well as (by popular demand) agency invoice summary.

## MONTHLY REFERENCE TABLE UPDATE

### Heads - Up!!

The ISC monthly reference table update process will resume in mid-February. The February reference tables include not only agency codes but also the bi-annual budget data (AMSAL and PAT) for the FY 2008 final ICASS budget.

## PYI: START NOW

### Reminder ~

Don't wait until mid-August to prepare your Partial Year invoices! You can start to collect data now. As soon as you complete the FY 08 final budget plan, you can use the Partial Year Invoicing module in the ICASS software to create your invoice for submissions to the ICASS Service Center.
